The Court orders that the motion for immediate consideration is GRANTED.

The motion for peremptory reversal is DENIED for failure to persuade the Court of the existence of manifest error requiring reversal and warranting peremptory relief without argument or formal submission. We note that defendant having been approved for parole on an upcoming date is not logically relevant to the complexity of the issues raised in this appeal and does not provide an appropriate basis for considering a grant of peremptory reversal that would deprive defendant of the benefit of oral argument and fuller consideration of this case by a case call panel of this Court.
